Technical Information	
Regulator	CSR485 OPSO
Capacity kg/h (kW)	4 (55)
Set Pressure	37 mbar
OPSO Set Pressure	125 mbar
UPSO Pressure	N/A
Limited Relief Valve	75 mbar
Design Standard	EN16129
Inlet connection	UK POL
Outlet connection	1/2" BSPT F

Meets current COP32 installation standards when fitted with stainless steel pigtails

13kg 19kg 47kg PROPANE   INLAND   OPSO   IP55

- "Push to Set" CSR OPSO safety protection with consumer resettable design.
- Visible OPSO trip indicator.
- 4kg/h (55KW/h) capacity.

- Protected breather vents and tough, weatherproof ABS plastic casing
- Engineer adjustable pressure.
- Available in a range of kits, with rubber pigtails and Clessinox outlet hoses.
